P-1 Petitions for  
Professional Baseball  
Players

15 JAN 1993

Director, Northern Center  
Service Center Operations

Adjudications  
(HQADN)

As you aware, the Service has entered into an agreement with Major League Baseball to process petitions for professional baseball players at the Northern Service Center. Part of the agreement was that petitions for P-1 baseball players must be accompanied by a signed major league contract, a letter from the player's association, and a letter from the league office. In view of the fact that both the Northern Service Center and this office have copies of the letters from the league office and the player's association, it has been determined that these documents should not be required for each petition. Therefore, petitions for P-1 professional baseball players need only be accompanied by a copy of the signed major league contract. Should you have any questions concerning this memo, or the agreement with Major League Baseball contact Senior Examiner John W. Brown at 202-514-3240.
